Kunstneren skriver selv om udstillingen "Woman":

"Woman" is an on-going

serie, where the focus point is the limited role women give themselves and are therefore never able to enjoy the advancement of life to the full, and its benefits. Women strap their feet into shoes that make it comically difficult to move forward and they do it to them themselvs.

Go ahead, be sexy. Make everyone's day. But don't expect to be taken seriously.

Udstillingen kan ses i Galleriet I Inside fra 4. – 30. august.
